Work Experience

- 2019 | **NHL Stenden Hogeschool (2 months)**
Teacher Assistant
Helping first year students with their Embedded Systems coursework. Answering questions and reviewing assignments.
- 2015 | **Friks (6 months)**
Front-end Developer
I was responsible for developing low to mid-tier websites from scratch while using the WordPress CMS for the back end. After a little while, other interns would come to me with their questions about how to do certain things, and I had great fun helping them. I also became the go-to person for fixing bugs found on their WordPress websites.
- 2014 | **FC-Sprint (6 months)**
Front-end Developer
At FC-Sprint I was responsible for converting Java-applets to HTML5/CSS3/JavaScript. I had great fun doing this, and I became pretty fast at it! The applets were mainly math and language exercises as well as practice exams, which (foreign) students would use to learn the material.

Education

- 2016 – 2021 | **NHL Stenden Hogeschool**
Computer Science
- 2011 – 2016 | **Friesland College**
Application Development
